

The HeartCheck™
**ECG PEN &
Smart Monitoring**

New Consumer Product

Approved by Health Canada and cleared by the Food and Drug Administration (FDA)

Whether your patients experience palpitations, a fast or forceful heartbeat or small variations of an otherwise normal heartbeat, the HeartCheck™ ECG PEN is an effective tool that can help prevent the occurrence of a sudden cardiac event.

Using the FREE HeartCheck™ desktop application, heart rhythms can be transmitted directly to the Smart Monitoring ECG coordinating centre for review.

With the HeartCheck™ PEN your patients and their family can enjoy the peace of mind knowing that they have an additional beneficial tool to help manage their Heart Health.
